**Pershina Arina** 9-A Winner (teacher Kochneva E.V.)  
**Danilenko Kirill** 10-A Awardee (teacher Varzova V.I.)

## Involved in the G-MUN Conference

Our students from the 10th and 11th forms (Kryzhova Kristina, Zakharov Igor, German Rada, Zheleznova Maria, Rodionova Daris, Danilenko Kirill, Myakinen Pavel, Stepanov Alexander, Dzyuba Victoria and Tostiashvili Maggy) took part in the G-MUN conference held in gymnasium № 587.

Model United Nations is a student-run simulation of the United Nations, where students assume the roles of foreign diplomats to learn about international politics and diplomacy. Student participants ("delegates") are required to research both the country they will represent at the conference as well as the specific topics to be debated in their assigned committee.

This year our students represented the USA. The main topic of this conference was the role of the Youth in the 21st century. Our students worked hard to get ready for the conference collecting data, writing resolutions and making their poster about the USA.

Other conference participants appreciated the work of our delegates.

## Involved in the European Youth Parliament

This year our school has hosted the European Youth Parliament annual session. The session took place on March 25-30 and was devoted to the topic “Every country has a culture, every culture is unique”. The EYP participants, 30 senior students from Germany, Sweden and Russia, discussed cultural peculiarities and distinctive characteristics, customs and traditions as well as leisure activities of their nations. The participants worked on their individual and group projects. Three teams included representatives of the three countries. The students also enjoyed a programme of exciting social events.
